If I could only get away for
just a month—a week—a day,
I'd go back home, and as I'd go,
the fastest train would seem too
slow. I'd first of all put in a
week just playing by the dear
old creek, if I'd the time, and sit
right there, with spring and sun
shine in the air, and watch the
drooping willows dip, and see
the merry skipjacka skip across
the pools of water where the
creek dried up and left them
there. I'd then go to a birch I
know, where years and years,
and years ago I cut my name—
and her's—one day, before my
hair grew scant and gray. And
then—but oh, why think of
these? Why dream of home and
creek and trees? What use to go
back anyhow! It's too late now.
It's too late now.—Staff Poet in
the Dallas News.

A lady of "dark" complexion was being tried before a South Carolina justice of the peace, charged with excessive cruelty to a child. The evidence was conclusive against her, but before passing sentence, the judge asked her if she had anything to say! "Kin Ah ask yo' honah a question!" she replied. "Yes," answered the judge, "go ahead." "Well, then, yo' honah," she asked, with the air of giving him a poser, "An'd like to ask yo' was you ever the parent of a blamed, measly, culled chile what you had no use foh?"

**Water Board Has Heard Six Appeals Argued
And Submitted—Lake Urton
Case Up Today.**

Several other cases will come up this afternoon and tomorrow but it is thought that the board will finish its work this week as far as listening to the cases is concerned. President Charles Springer stated today that it is likely several decisions will be given before the board adjourns.

The application of the Farmers' Development company was heard yesterday and Judge J. C. Gunter of Colorado is the attorney for this company, which wishes to enlarge its dam, and delivered a brilliant and lengthy argument yesterday.

The Urton Lake project of which Former Governor Miguel A. Otero is president, comes up this afternoon.

This company took over from the United States government the Lake Urton reclamation site on the Pecos river south of Fort Sumner and near the Chaves county line, which was to have reclaimed 20,000 acres of land selected under the Carey act.

The government had abandoned the project because of the many it had already under way, but had made complete surveys and plans which were acquired by the territory and for which application had been made by a syndicate of Denver men and in which ex-Governor M. A. Otero and the late Territorial Secretary J. W. Reynolds were interested. However, their application for the necessary appropriation of water from the Pecos river was rejected by Former Territorial Engineer Vernon M. Sullivan on the ground that the United States Reclamation Service had already appropriated more than the ordinary flow of the Pecos and that therefore no water remained for appropriation.

The Urton Lake site is a natural reservoir site and one of the most favorably located in the United States for a large irrigation project.

M. B. Melville of Denver is here to represent the Lake Upton proposition and so is A. T. Rogers of Las Vegas.—Santa Fe New Mexican.

S. W. Bends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for twelve years. They were a liver and kidney trouble. Then Dr. King's New Pills throttled them. He's well now. Unrivalled for Constipation, Malaria, Headache, Dyspepia. 25c, all Druggists.

"I never felt so near my grave," writes W. R. Patterson of Wellington, Texas, as when a frightful cough and lung trouble pulled me down to 100 pounds in spite of doctor's treatment for two years. My father, mother, and two sisters died of consumption, and that I am alive to-day is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 lbs. and have been well and strong for years." Quick, safe, sure. It's the best remedy on earth for coughs, colds, lagrippe, asthma, croup, and all throat and lung troubles. 50 cts. and \$1.00, Trial bottle free. Guaranteed by all druggists.
